

# Keeping you COVIDSafe

We can't wait to create some science fun with you. But since we are doing things a little differently right now, please read the following carefully so that everyone stays safe and has a great time!

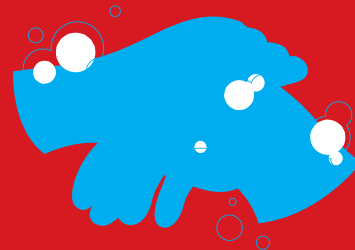

Please wear a mask when required or when you can't socially distance.

We have limited our numbers to ensure everyone can safely distance.

Our staff clean and sanitise high touch surfaces between sessions.

All visitors are required to frequently wash or sanitise their hands.

# Keeping you COVIDSafe

## Masks

Please ensure all guests wear a fitted mask covering their nose and mouth if required by current government regulations.

## Social Distancing

Please give other visitors space when enjoying our interactive exhibits. We require 1.5m between visitors, unless they are from the same family. We may also cap the number of visitors depending on current density limit requirements.

## Contact Tracing

You will be required to enter the first name and phone number of each person attending prior to entry. We will keep this information for 28 days. Please be assured we will never use or share this information with any third party unless required for contact tracing.

## Hand Sanitiser and Washing

All participants must sanitise their hands on entry. We also encourage everyone to sanitise and wash their hands with soap and water often during their visit.

## Enhanced Cleaning

Our staff are trained to keep everything as clean as possible. We clean or sanitise high touch points between each session.

We may change our procedures to comply with government mandates. We appreciate your understanding and cooperation in this challenging time.
